1.	2.	3.	4.	5.
7. Scientific name(s) (Genus, species and variety) of the material to be imported/retained, including the harmful organism concerned, where appropriate				
8. Type of material to be imported/retained (e.g. culture of plant pathogens, larvae, rooted cuttings, soil etc.)				
9. Quantity to be imported /retained				
10. Country or place of: (a) origin; or (b) export (if different to (a))				
11. Proposed point of entry into UK				
12. Full postal address of the site(s) where material is to be kept				
13. Number of consignments to be imported				
14. Anticipated date of importation of each consignment				
15. Date work expected to be completed				

16. Please provide a resume of the nature and objectives of the work to which this application relates, including where available references to published literature, pest risk assessments, protocols and any other supporting documents.

If necessary continue on a separate sheet and tick this box

Tick as appropriate

17. Will the work be entirely 'in-vitro' in the laboratory? YES NO
- If 'NO', will the work involve plants or parts of plants within
- | | | |
|----------------------|------------------------------|-----------------------------|
| a) a laboratory; | YES <input type="checkbox"/> | NO <input type="checkbox"/> |
| b) a growth room; or | YES <input type="checkbox"/> | NO <input type="checkbox"/> |
| c) a glasshouse? | YES <input type="checkbox"/> | NO <input type="checkbox"/> |

18. Please state the measures to be taken to ensure safe containment of the material to be covered by the licence. (Please include details of rooms and buildings, including names and numbers.)

If necessary continue on a separate sheet and tick this box

19. Please state the arrangements to be made to ensure safe disposal or treatment of the material on completion of the work where appropriate?

If necessary continue on a separate sheet and tick this box

20. Where the work to which this application relates involves trialling sections, please give details of the place of first storage or first planting after the material has been officially released from quarantine.

If necessary continue on a separate sheet and tick this box

21. Please add any other information you feel may be useful in support of this application. Please also include a list of the names and scientific and technical qualifications, of all personnel who will be undertaking activities under the licence.

If necessary, please continue on a separate sheet and tick this box

Plant Health (Great Britain) Order 1993

General Conditions

Relating to the issue of licences to import, move and keep prohibited plants, plant pests, soil or growing medium and plant material for scientific or trialling purposes

- (i) Fera may on plant health grounds refuse any application for the issue of a licence. A licence will not be issued if Fera has reason to believe that any information supplied by the applicant is incorrect or inaccurate. Delays in processing applications may occur if the form is not properly completed or signed.
- (ii) No liability shall attach to Fera or any of its officers for any delay in granting or failure to grant a licence or any delay or non-delivery, delayed delivery or mis-delivery of any documents. Licences will be issued only on the understanding that no liability shall attach to Fera or its officers in any circumstances in respect of the issue or contents of any licences and that Fera accept no responsibility for any resulting loss however caused.
- (iii) Fera and its officers shall be entitled to rely upon the accuracy of all information supplied by or on behalf of an applicant for the issue of a licence.
- (iv) **Fees will be charged for the issue of licences.** Details of the fees are given in a separate explanatory leaflet (PHI 1). **No application will be considered before the correct fee has been paid.**
- (v) If, after investigation and inspection, it is decided on plant health grounds that a licence cannot be issued any fees paid will not be refunded. Fees will be refunded only in circumstances where it is decided a licence is not required.
- (vi) Licences are granted on the strict understanding that licensees observe all conditions which may be part of the licence. Failure to comply with any conditions may result in the withdrawal of the licence and destruction of any material imported or retained. No refund of fees

will be given in such circumstances. You may also be liable to prosecution.

- (vii) Inspections of imported or retained material may be made at any time by an Inspector.
- (viii) In case of any dispute English law shall apply.

(ix) Data Protection

Information provided will be used for the processing of your application. Details will be held in our computer system and will be used to compile statistics on activity in your sector for submission to the EC Commission and for administrative purposes. In emergency situations, such as a pest outbreak, information (including the location of licenced material) may be used by Fera, Defra and other Government Departments or their appointed agents.

Fera may be required to release information, including personal data and commercial information, on request under the Environmental Information Regulations, the Code of Practice on Access to Government Information or the Freedom of Information Act 2000. However, Fera will not permit any unwarranted breach of confidentiality nor will we act in contravention of our obligations under the Data Protection Act 1998.

Fera or its appointed agents may use the name, address and other details on your application form to contact you in connection with occasional customer research aimed at improving the services that Fera provides to you.
